Introductions

describe **who you are**, what you **currently do**, what you **plan to do** in the future

Reflect on **High School**

1. What do you **wish** you had known in high school about **careers**?
2. If you had it to do all over again, what would you have **done differently** in high school?
3. What **high school courses** were most **helpful** to you in your college studies?

anything else?

Reflect on College

1. How did you **choose** your college? What factored into your decision?
2. What do you **like** about being a science / **engineering student**?
3. What **extracurricular** activities did you participate in during your studies? (Did you participate in research during college? What did you do and how did you find out about it?)
4. What were you most **surprised** to learn in college about science and engineering **careers**?

anything else?

Reflect on Learning

1. **Who** has supported you during your scientific journey?
2. Have you experienced any **challenges** as a **Navajo student** in science or engineering? How did you **overcome** them?
3. **When** did you know that you **wanted to be a scientist/engineer**?

anything else?

Advice?

if you had to give a **young Navajo learner**
one piece of **advice**, what would it be?
